# What can I do with SmarTracks?

## Smart Run or Diagnostics?

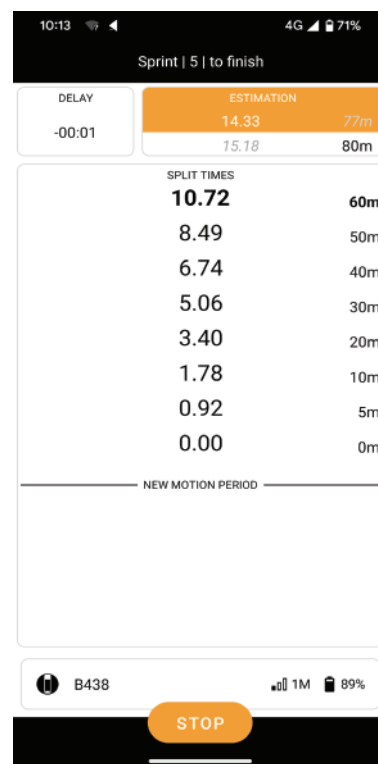

### Smart Run App

Running data for short-, middle- and long distance runs, agility tests and run-ups.

- ◀ easy smartphone app
- ◀ Livestream timing results
- ◀ suitable for single runs and single athletes

Measures:

- ◀ total time and split times
- ◀ distance
- ◀ step frequency
- ◀ number of steps
- ◀ speed

### SmarTracks Diagnostics Software

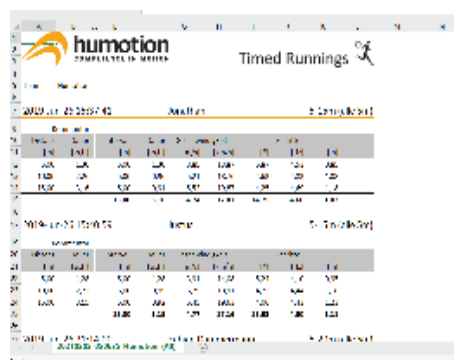

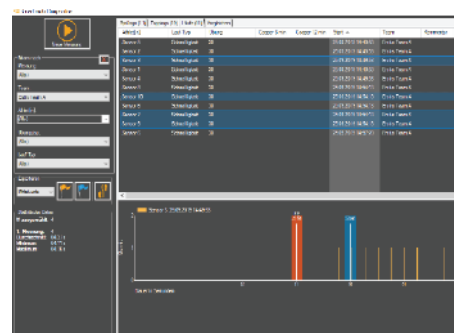

Measure runs, agility tests, jumps and tappings. Data editing, overview and export with the SmarTracks Diagnostics PC software.

Running data incl. running time, split times, running distance, step frequency, number of steps, step length, and speed.

For groups and single athletes. You can do multiple tests and multiple athletes with one measurement.

Measures:

- ◀ sprint tests
- ◀ agility tests
- ◀ jump tests
- ◀ Cooper test
- ◀ tappings test

# SmarTracks: Timing Gates In-Ground or Mobile

## Timing Gates In-Ground

A SmarTracks Location has SmarTracks Timing Gates installed under the sports surface.

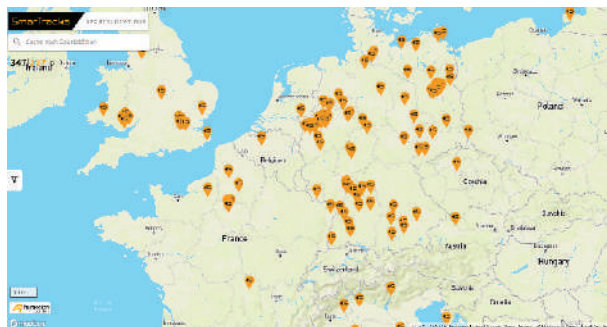

⌚ : Time in seconds | 👤 : Steps | 🏃 : Speed | 📏 : Step length | 📊 : spm: Steps per minute | 📊 : Hz: Steps per second | 📶 : Visualized magnetic gates

Timing Gates can be integrated into old and new sports surfaces. They are invisible, require no electronics and are maintenance free.

The Timing Gates In-Ground can be used with the DX5.0 sensors but you can also run with your smartphone and get basic timing and step information in the Smart Run app for free.

Interested to know the possibilities for your sports location? Contact us!

Scan the QR code to view our SmarTracks locations all over the world.

► [Or follow this link](#)

Time runs on a SmarTracks Location for free with the Smart Run app

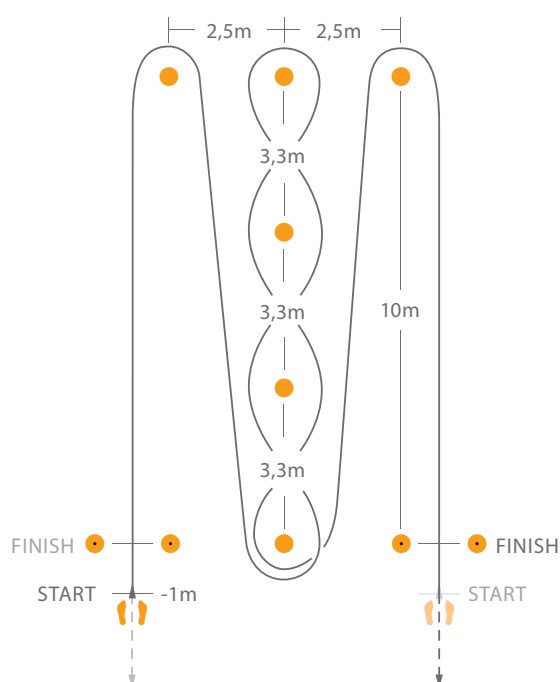

## Timing Gates Mobile

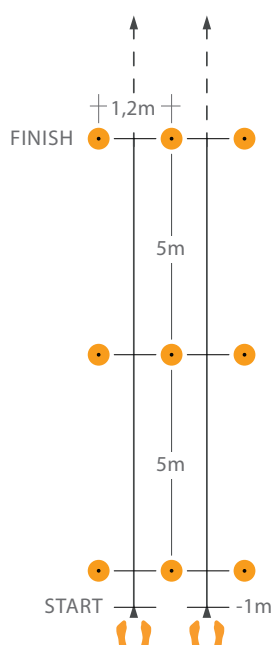

If you do not have access to a SmarTracks sports location, you need **Timing Gates Mobile**. The Timing Gates Mobile can be set up in any configuration you like, such as double sprints and agility tests. They are easy to set up, robust against wind and rain and do not require electric wiring.

Example setups:

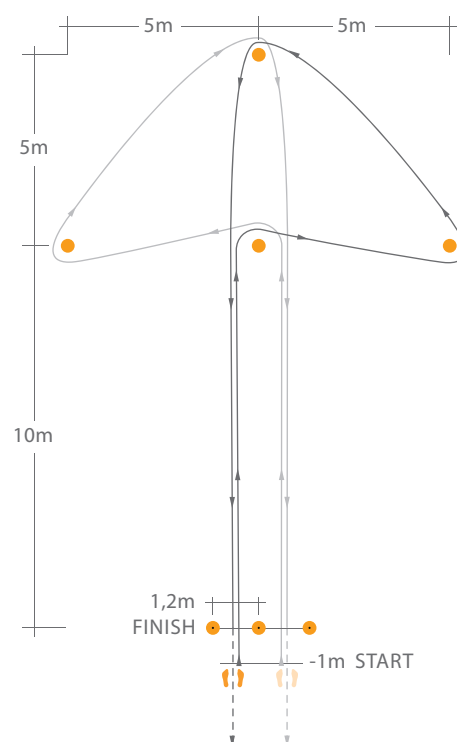

### Illinois test

### Two lane sprint

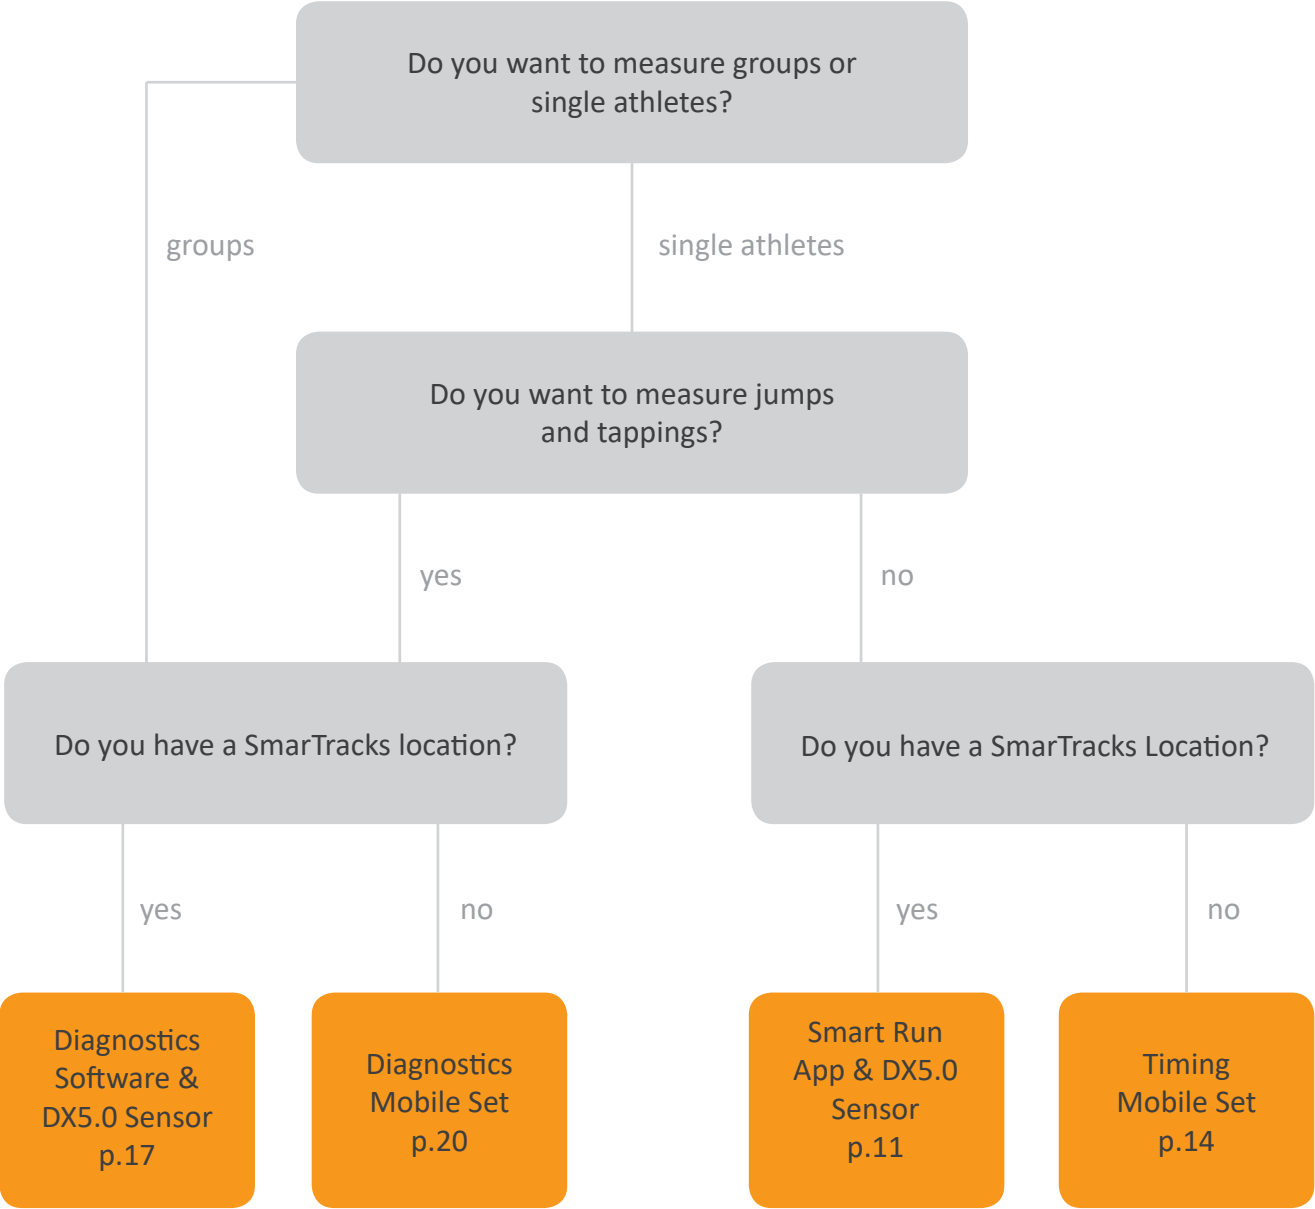

### Arrowhead agility test

Our Mobile Sets come with 4 or 2 Mobile Gates, with which you can perform all tests. If you need more Gates for for example parallel sprint lanes or additional intervals, you can add as many Gates as needed.

NOTE: The Mobile Gates are also compatible with the Timing Gates In-Ground. So if you have a SmarTracks Location, you can use the Mobile Gates to add more intervals.

What do I need?

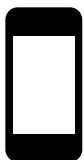

# Smart Run App & DX5.0 Sensor

## Measure your runs on a SmartTracks Location

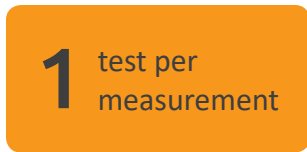

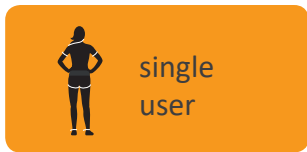

Measure runs on a sport location that has the Timing Gates In-Ground, and receive high-resolution timing and step information.

**What you'll need:** Smart Run app | DX5.0 Sensor | SmartTracks Location

# Smart Run App & DX5.0 Sensor

## Smart Run App & DX5.0 Sensor – Product Components

TB40 Belt

DX5.0  
Timing Sensor

Smart Run app

SmarTracks Timing Set for professional timing on a SmarTracks Location. Includes the DX5.0 Timing sensor with belt, in combination with the Smart Run app.

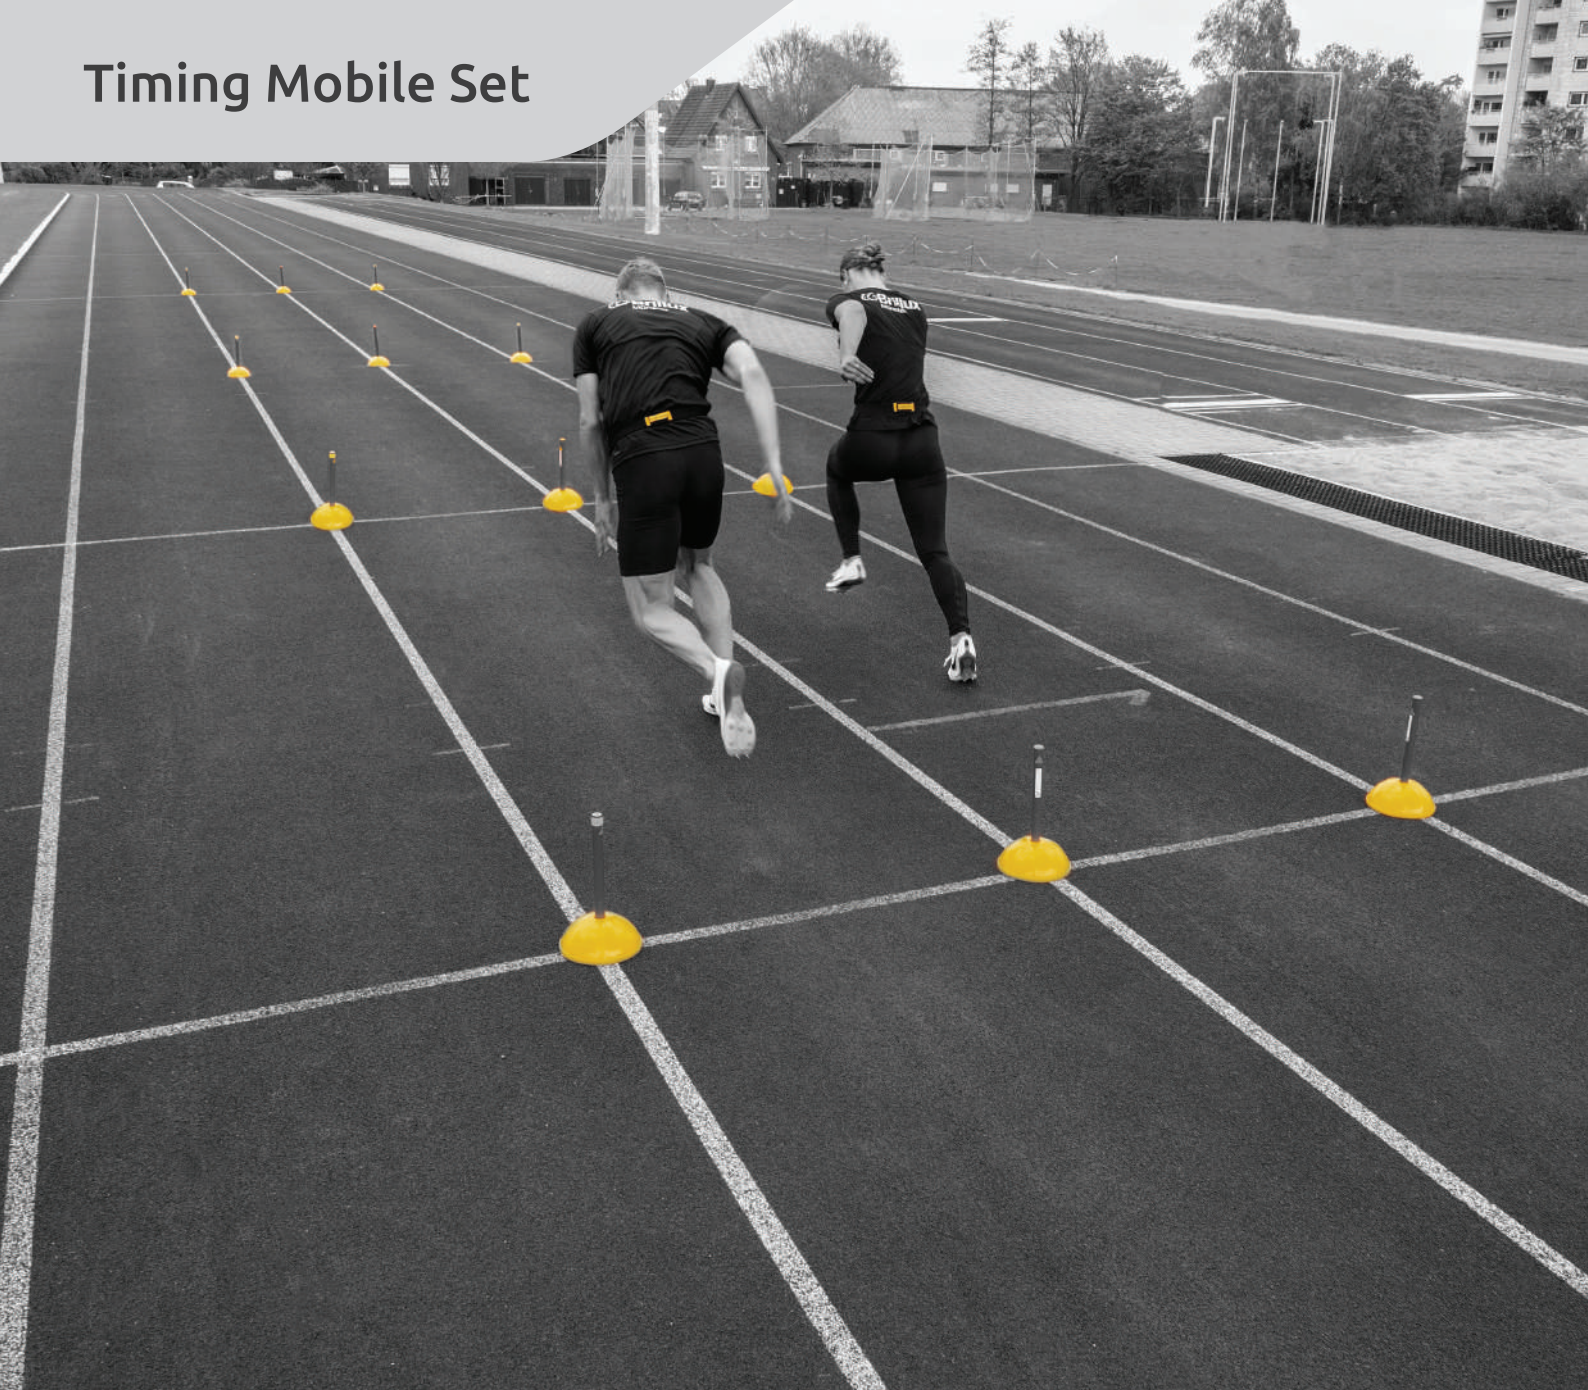

### Includes

- ◀ 1 DX5.0 Timing Sensor
- ◀ 1 TB40 Belt
- ◀ Smart Run App

[Free of charge. Certain functions in the Smart Run app require e-mail registration.]

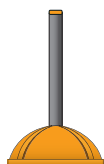

# Timing Mobile Set

## Measure runs on any location

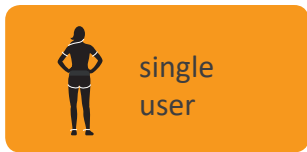

Measure runs with any desired gate setup and receive high-resolution timing and step information.

**What you'll need:** Smart Run app | DX5.0 Sensor | Timing Gates Mobile

## Diagnostics Software & DX5.0 Sensor – Product Components

SmarTracks Diagnostics  
PC software

DX5.0 Diagnostics

MB60 Belt [sizes XS-S, M-L]

SmarTracks Diagnostics for people with access to a SmarTracks sports location. Measure runs, agility tests, jumps, and tappings.

Includes the DX5.0 sensor and PC software for Windows 10 or higher, with a single-user license.

Extra: The DX5.0 Diagnostics sensor can be used separately with the free Smart Run mobile app. This allows you to measure runs and see timing results livestreamed to your smartphone.

### Includes

- ◀ 1 SmarTracks Diagnostics PC Software [only for Windows]
- ◀ 1 Sensor DX5.0 Diagnostics
- ◀ 2 MB60 Belts [1 XS-S, 1 M-L]
- ◀ 1 Sensor Clip
- ◀ 1 USB 2.0 A-Extension
- ◀ 1 Transportation Case

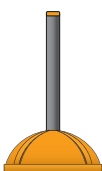

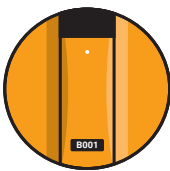

# Diagnostics Mobile Set

## Performance diagnostics anywhere you need it

Measure performance diagnostics tests on any location.

## Diagnostics Mobile Set – Product Components

SmarTracks Diagnostics Set for performance diagnostics anywhere. Measure runs, agility tests, jumps, and tappings.

Includes the DX5.0 Diagnostics sensor, 4 Timing Gates and SmarTracks Diagnostics software with a single user license (for Windows 10 or higher).

Extra: The DX5.0 Diagnostics sensor can be used separately with the free Smart Run mobile app. This allows you to measure runs and see timing results livestreamed to your smartphone.

### Includes

- ◀ 1 SmarTracks Diagnostics PC Software [only for Windows]
- ◀ 1 Sensor DX5.0 Diagnostics

- ◀ 2 Angle Holders
- ◀ 1 Sensor Box
- ◀ 1 Measuring Tape
- ◀ 1 USB 2.0 A-Extension
- ◀ 1 Transportation Case

## What sensors are there?

---

There are two DX5.0 sensors: the DX5.0 Timing and the DX5.0 Diagnostics.

The DX5.0 Timing can only be used with the Smart Run app. The DX5.0 Diagnostics can be used with both the Smart Run app and the SmarTracks Diagnostics PC software.

Sensor			DX5.0 Timing	DX5.0 Diagnostics	
Application			Smart Run App	Smart Run App	SmarTracks Diagnostics

# DX5.0 Timing Sensor

---

used with  
**Smart Run App**

You will receive livestream timing results on your smartphone and after the run you can view all your run data on your smartphone and on the SmarTracks online website.

# DX5.0 Diagnostics Sensor

---

used with  
**Smart Run App**  
  
and  
**SmarTracks  
Diagnostic Software**

If you have a DX5.0 Diagnostics sensor, you can use it with both the SmarTracks Diagnostics software and the Smart Run app.

Note: You cannot combine the measurements of software and app. For example, you cannot start a measurement with the app and then analyze it with the Diagnostics software.

# Accessories

## MB60 Belt

SmarTracks Belt for holding the DX sensor in place. Does not include the sensor clip.

## Sensor Clip for DX5.0

Sensor holder for the DX5.0 sensor (with velcro to attach the sensor to the MB60 Belt).

## TB40 Belt

Belt for holding the DX5.0 sensor in place when using it with the Smart Run app. The TB40 Belt cannot be used with SmarTracks Diagnostics PC software.

## Mobile Gates [set of 2 or 4]

2 Timing Gates [4 MCDs and 4 cones] or 4 Timing Gates [8 MCDs and 8 cones] in a transportation case.

## Angle holders [set of 4]

4 MCD holders for an angled setup of Mobile Gates (required for certain agility tests and for measuring people with small body height).

## Cones [set of 8]

8 cones (for marking the field or as holders for Mobile Gate MCDs).

# Technical Requirements for App and PC software

## Smart Run App, used without a DX5.0 sensor

---

- ◀ accelerometer, gyroscope and magnetometer (each in three axes)
- ◀ Android 8 or newer
- ◀ iOS11 or newer
- ◀ measuring rate of min. 100 Hz
- ◀ good quality sensors

## Smart Run App, used with a DX5.0 sensor

---

- ◀ accelerometer (in three axes)
- ◀ Android 8 or newer
- ◀ iOS11 or newer
- ◀ Bluetooth 4+

## SmarTracks Diagnostics PC software

---

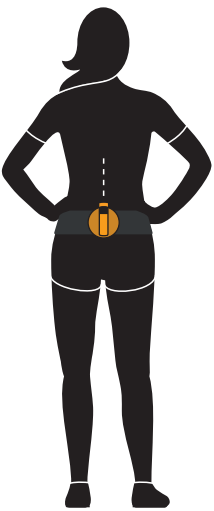

- ◀ Windows 10 (from version 1909)
- ◀ 15" Display
- ◀ Intel i5 equivalent or better
- ◀ RAM:  $\geq$  8GB, 16GB is preferred
- ◀ storage: SSD or similar
- ◀ disk space [application]: min. 1GB
- ◀ disk space [recorded data]: min. 10GB
- ◀ 1 free USB type A interface
- ◀ the PC software is not compatible with MacOS

## MB60 Belt

The MB60 Belt is placed on your lower back with the sensor in a **vertical** position. The belt should be placed so that the top edges of the belt are at the same height as the top of your hip bones.

The MB60 Belt is used in combination with either the DX5.0 Timing or the DX5.0 Diagnostics.

The MB60 Belt comes in the sizes XS-S and M-L.

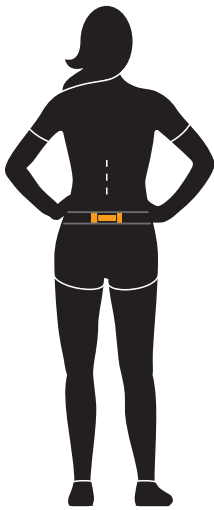

Sizes XS-S	Sizes M-L
[confection size S]	[confection size M]
weight: 62g length: 80cm width: 60cm	weight: 130g length: 112cm width: 60cm
washable at 30°C [material: 55% viscose, 23% polyamide, 20% polyester, 2% polychloride]	washable at 30°C [material: 62% viscose, 20% polyamide, 16% polyester, 2% polychloride]
suitable for waist size: approx. 52cm-75cm	suitable for waits size: approx. 71cm-110cm

## TB40 Belt

The TB40 Belt is placed on your lower back with the sensor in a **horizontal** position, with the black cap pointing left. The belt should be placed so that the top edges of the belt are at the same height as the top of your hip bones.

The TB40 Belt cannot be used in combination with the SmarTracks Diagnostics PC software!

The TB40 Belt is single-size, suitable for hip circumference of ca. 55-110cm.
